### PROFILE

“Second-year Computing Science student at Thompson Rivers University with a GPA of 4.06/4.33 and Dean's List honors in every semester. Proficient in Java, Python, and web development technologies. Eager to apply technical expertise and creativity in a challenging internship environment that fosters growth and innovation.”

### PROJECTS

#### CodeConnect (Forum Website)

- Designed a PHP-based forum with MySQL backend for discussions and user management.
- Implemented dynamic pagination and a 'Load More' comments feature using jQuery.
- Implemented user authentication with PHP sessions and password hashing.
- Optimized SQL queries for improved performance in high-traffic scenarios.

#### Portfolio Website

- Created a responsive portfolio to showcase projects and skills using HTML, CSS, and JavaScript.
